jcosgrovejr@gmail.com

Like many aspiring artists, my spark began with Bob Ross. From Bob's "wet on wet" oil based landscapes, I have graduated to explore other mediums including acrylics, watercolors, pastels and pen and ink pieces. I like to focus on the use of a variety of colors to capture a range of subjects from landscapes and seascapes to birds and scenes around the Austin area and other urban and rural settings. I try to learn from various artists such as Monet and Van Gogh by exploring a wide range of styles from realistic to impressionistic to abstract. Art is a constantly learning and sharing experience for both the artist and the viewer. It's fun to share this experience.
