I've spent the first 39 years of my career teaching and directing nonprofit organizations. In 2020 when COVID hit, I was teaching public school. A year of isolation allowed me ample time to focus on drawing and painting, and individuals have been drawn to my "style." I enjoy creating mixed media pieces, and have recently begun using soft pastels. The majority of my pieces are portraits.

I have since spent my time doing commissioned paintings and participating in local art shows and fairs. My artwork has been displayed at FaFa Gallery, Midland Community Theater, Midland Shared Spaces, Weatherford Art Center, Celebration of the Arts, and Septemberfest.
